Nice to meet you, I’m Dr. Kind.
Hi.
We want to draw your blood.

What does that mean? Do I have to do this? Will it hurt?
These are great questions. Let’s talk about what will happen.

First they will clean your skin. It might be cold.

Insert needle

Draw blood

Remove needle

Questions you can ask your doctor.

7. Why do I need to do this?

8. Can someone be there with me?

9. Yes, you can bring someone with you if you like.

10. Now that we’ve talked about this, are you comfortable doing it?

11. Later at home...

12. Do you want me to go with you?

13. Hello, I’d like to make an appointment to get blood drawn.

Do I need to do anything before I come?
